## CONFLICT MINERALS AND EXTENDED MINERALS (COBALT, MICA) DECLARATION

As a manufacturer of assembled electronic devices, Tremol SMD Ltd. is aware of our obligations with regards to national and international laws and regulations regarding Conflict Minerals.

Tremol SMD Ltd. does not directly source or process conflict minerals such as tin, tantalum, tungsten, gold and their derivatives or mica, cobalt, its salts and related substances. Conflict minerals mentioned above are contained in our products in the form of solder materials, as contents in metal alloys, electronic components, batteries, and PCB surface finishes.

Mica is an important raw material of effect pigments, which are used in automotive and industrial coatings and plastics, as well as in the cosmetics and food industries. Mica minerals appears a part of the PCBA / PCB and plastic parts of the products that Tremol SMD Ltd. provides to its customers.

We are committed to ensuring the health, safety and protection of people, who come into contact with our products and business, and we require high social, environmental and human rights standards among our suppliers. Managing our obligations in relation to Conflict Minerals is a part of our corporate responsibility.

Therefore, as part of our reasonable due diligence, Tremol SMD Ltd. has contacted component suppliers within our supply chain to verify their continued compliance with applicable regulations.

**Based on the information received thus far we declare that our products contain Conflict Minerals & Extended minerals sourced from conflict-free areas.**

Sincerely,

*Kiril Yanneff*  
Executive Director  
Tremol SMD Ltd
